

To the Hartford Community

A heartfelt thank you to every fan, player, volunteer and sponsor who made the 2016 Travelers Championship® such a successful and memorable event.

We generated \$2.8 million – a record amount – for more than 140 charities, bringing the total to approximately \$13 million for over 500 charities since Travelers became title sponsor in 2007. The outpouring of support to help raise funds for the ALS Clinic at the Hospital for Special Care and the Bruce Edwards Foundation was deeply moving and inspirational. Together, we will advance ALS patient care and research to find a cure.

Then there was the tournament itself: thrilling, captivating, world-class golf. Congratulations to Russell Knox, this year's champion among a standout field, and to Jim Furyk for his historic 58 on Sunday, a PGA TOUR® record.

It was another outstanding job by Tournament Director Nathan Grube and his team. Their hard work and dedication make the Travelers Championship one of the best stops on the PGA TOUR.

On behalf of all of us at Travelers, thank you again for your generosity and helping us give back to the community. We look forward to seeing you next June!

Thank You

On the facing page is a letter from the senior group at Travelers that has the responsibility for making the Travelers Championship an event we can all be proud of. I wanted to express deep personal thanks and appreciation to the entire community for making this event one of the very best on the PGA TOUR.

At our initial closing ceremony in 2007, I committed to all of you that if you kept coming, we would keep putting on the event. You responded with great enthusiasm and enabled us to bring great change to a storied event that our community almost lost. Those of us at Travelers could only have done so much – you had to do the rest. I am so grateful that all of you have embraced this tournament with as much enthusiasm as I have.

This year was particularly poignant in that our principal beneficiary was the ALS Clinic at the Hospital for Special Care. We also organized an incredibly successful event for the Bruce Edwards Foundation, raising in excess of \$1.2 million. Since announcing my own ALS diagnosis publicly, I have been on a mission to raise awareness, raise funds and raise hope regarding this dreadful disease. Your response was simply remarkable, and I want the entire community to know from the bottom of my heart how much I appreciate your support this year. Together, we “leaned in” and “carried on” in ways that far exceeded my expectations.

I am a proud member of the Travelers family and I am also a very proud member of our community. I look forward to seeing you all at the 2017 Travelers Championship.

With much affection,

Jay S. Fishman
Executive Chairman of the Board
